

## Database of Healthcare Interest Groups

Discover the power of Healthcare Interest Groups with our comprehensive database.

The groups are defined as organisation whose members of staff and/or students share political, social or other goals and ambitions relating to healthcare. Their mission is to influence public policy and opinion to achieve those goals which can be achieved through education, legislation, financial support or advisory roles.

If you want to influence or find key opinion leaders in specific therapy areas and organisations like charities, Royal Colleges and Universities this product will help you. Our data covers UK and Ireland.

All information within the database is regularly verified and updated by our specialist team of product researchers, giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

- Mental Health
- Neurology
- Oncology
- Renal
- Respiratory

For the most up-to-date counts or to speak to us about our Campaign Packages, please contact your account manager direct or use the contact us form on this site.

**Please note:** It is common for a healthcare professional to have more than one responsibility. Therefore, there may be fewer named individuals on the database than there are areas of responsibility indicated above. Counts provided will be deduped to provide 'unique' contacts. Number of contacts may vary during our research cycle due to the fast-paced rate of change of organisations changes within UK healthcare. Counts correct at time of publishing **September 2024**.
