

Database of NHS Commissioning

Our Database of NHS Commissioning is an accurate means to communicate with key stakeholders in Healthcare in the UK. This product combines relevant healthcare professionals for ease of review and selection.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

Data can be segmented to enable targeting of campaigns by:

- Job Responsibility
- Organisation Type
- ICB/Integrated Care System

For the most up-to-date counts or to speak to us about our Campaign Packages, please contact your account manager direct or use the contact us form on this site.

Please note: It is common for a healthcare professional to have more than one responsibility. Therefore, there may be fewer named individuals on the database than there are areas of responsibility indicated above. Counts provided will be deduped to provide 'unique' contacts. Number of contacts may vary during our research cycle due to the fast-paced rate of change of organisations changes within UK healthcare. Counts correct at time of publishing **September 2024**.
